

N+ Certification

Designed For: Network support staff, IT Graduates and anyone who wishes to gain an internationally recognised computer networking qualification.

Pre-Requisites: Knowledge of PC hardware and software. *For those without this skill base, we offer a course leading to A+ Certification.*

Objective: To prepare students for the CompTIA N+ Certification Examination. (See below). The Network+ Certification program is an industry-wide, vendor-neutral program developed and sponsored by the Computing Technology Industry Association (CompTIA).

Course Content:

- Network Theory
- Bounded Network Media
- Unbounded Network Media
- Network Implementations
- TCP/IP Addressing and Data Delivery
- Routing and Switching
- TCP/IP Implementation
- Network Security Analysis
- Network Security Implementation
- WAN Infrastructure
- Cloud and Virtualisation Techniques
- Remote Networking
- Network Management
- Network Troubleshooting

Study Options

- 1. Home Learning:** We supply a high quality course manual. Then you study independently.
- 2. Centre Learning:** We supply high quality course materials. We then provide additional support. We provide the student with the necessary hardware and software to carry out the exercises built into the course materials. This is done through a series of supervised lab sessions at our centre, which can be arranged at times to suit the student.

TAKING THE EXAMINATION

The Exam for the N+ programme can be taken at our Act Training Centre in Coventry. The cost of sitting this exam is not included in any fees quoted.

N+ Certification Exam (Exam: N10-007)
